Tuesday, March 3, 2020
2:30pm - 5:00pm
Thomas W. Keating Bioresource Building
1657 E. Helen St., Tucson, AZ, 85721

Learn more about some of the exciting solutions UA colleagues and mentors are working on to solve societal problems reflecting the broad range of BIOS5’s interdisciplinary research scope, including projects in progress.

With a goal of promoting possible collaborations, this event is open to faculty, students, and staff across the UA community and will showcase the novel research supported and cultivated by the BIOS5 Institute and performed by BIOS5 faculty members and trainees.

**RSVP**

Questions contact **Amy Randall-Barber** at amyrandall@bio5.org or (520) 626-3001.
